PROFESSIONAL SUMMARY

Passionate Software Engineer and B.Sc. Computer Science student with a strong foundation in frontend development, software engineering principles, and problem-solving. Skilled in JavaScript, Python, HTML, CSS, React.js, and Flask, with experience building responsive web applications and backend systems. Passionate about developing scalable, secure, and user-focused software while continuously learning modern technologies such as TypeScript, Node.js, Docker, AWS, and System Design. A fast learner with excellent analytical thinking, collaboration skills, and a commitment to writing clean, maintainable code.

EDUCATION

• Bachelor of Science (Computer Science) | Shree L.R. Tiwari Degree College of Science and Commerce | Expected Graduation: June 2026
• Higher Secondary Certificate (HSC) | St. Thomas High School | Maharashtra State Board • Secondary School Certificate (SSC) | Maharashtra State Board

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3, SQL, C++ (Basic)

Frontend: React.js, Bootstrap, Responsive Web Design, Flexbox, CSS Grid, REST APIs

Backend: Flask, REST APIs, JSON

Database: MySQL, SQLite

Tools: Git, GitHub, VS Code, Postman, MS Office

Concepts: OOP, Data Structures & Algorithms, SDLC, Agile, Debugging, Version Control

Currently Learning: TypeScript, Node.js, Express.js, Docker, AWS, GitHub Actions, JWT Authentication, System Design, Jest

PROJECTS

AI Resume Analyzer

React.js • Python • Flask • OpenAI API

- Building an AI-powered application that analyzes resumes and provides

ATSoptimization suggestions.
- Integrating AI APIs to generate personalized resume improvements.
- Implementing secure file upload and document parsing.
- Designing a responsive frontend with reusable React components.

Women Safety Analytics System

Python • Flask • MySQL

- Developed a backend-driven application for emergency assistance and safety monitoring.
- Designed REST APIs for emergency alerts and location-aware services.
- Structured the application using modular architecture for maintainability.
- Focused on secure data handling and scalable backend logic.

CERTIFICATIONS

• Skyscanner – Front-End Software Engineering Job Simulation (Forage)
• JPMorgan Chase – Software Engineering Job Simulation (Forage)
• British Airways – Data Science Job Simulation (Forage)
• Introduction to MEAN Stack (Simplilearn)
• Full-Stack Development 101 (Simplilearn)

RELEVANT COURSEWORK

Web Development, Data Structures & Algorithms, Database Management Systems, Computer Networks, Operating Systems, Python Programming, Software Engineering

PROFESSIONAL DEVELOPMENT

• Learning React.js and modern Frontend Development.
• Building personal projects.
• Exploring UI/UX principles and responsive web development.
• Practicing Git and GitHub for version control.

ADDITIONAL SKILLS

Soft Skills: Problem Solving, Communication, Team Collaboration,Quick Learning, Time Management.
